AIMS

The PPH is an individual exercise where the student carries out an investigation or some research into a subject of particular interest to them in the aim of developing some form of critical analysis of the subject. The PPH is a means by which the student can show their ability to build an analysis based on a rigorously developed thesis. The analysis is based on a personal approach to the subject (openness to the wider world), the way the subject is dealt with (for example the use of a personal experience as a way of seeing the world or the chosen subject), or in certain cases the creative approach used (for example, for an artistic experience).

The PPH requires the ability to work autonomously.
